### **Landscape and Irrigation Improvement Project In San Pedro on Terminal Island Freeway (State Route 47) and the Harbor Freeway (SR-110)**

The California Department of Transportation (Caltrans) is performing landscape and irrigation improvements at various locations on the Terminal Island Freeway (SR-47) from Gaffey Street to Harbor Boulevard and on the Harbor Freeway (I-110) from Gaffey Street to Channel Street.

Construction activity is scheduled to continue daily, Monday through Friday, from 7 a.m. to 4 p.m.

Active construction began May 2007 and is expected to complete by early next year.

The first step consisted of clearing brush and old vegetation, which has been completed. The current phase involves irrigation system improvements, and is expected to complete in November 2007, weather permitting. The final phase is planting new trees, shrubs and groundcover, concluding with a one-year plant maintenance period until winter 2009.

This project area will be re-planted with a combination of low-growing shrubs, ground cover and trees. Randomly spaced evergreen and flowering trees are proposed throughout the project site with the heaviest concentration adjacent to the fence-line residences. The objective will be to balance the expressed concerns of limiting cover for vagrancy, unauthorized activity and fire risk with screening wide-open views of the freeway traffic by providing a filtered view of the right of way. The contractor has a one-year commitment to maintain the plants. If any plant fail during this one-year period, they will be replaced.

For any further questions please contact Dennis Snyder at 213.897.4299 or Jennifer Taira at 213.897.0975
