Our committee's intention is to request information on key locations (Peck Park, local schools, etc.), important preparation actions, emergency radio frequencies, emergency preparation items, and recommended evacuation routes to assist with outreach to constituents via NWSPNC newsletter. Action: Request assistance from Councilmember Buscaino's office to open the lines of communication

 - a. Wayne submitted contact information for Kyle at Major Surplus, a sponsor of the Torrance EP Fair.
- C) CERT Training – Cynthia received “cold shoulder” response from LAFD POC. Mentioned August CERT Training in harbor area. Cynthia to fwd received msg to John. Cynthia will also research other CERT Training locations within reasonable distance for promotion in next NWSPNC newsletter.
- D) Traffic accident near Rancho facility – Cynthia called LAPD as follow-up to NWSPNC President Diana Nave's discussion with LAFD. Received same level of response – basically no information. Recommend NWSPNC Board request information at next board meeting directly from LAPD liaison.
