Public Comment: None

Crime Stats:

Recent burglaries and attempted burglaries in the Taper and harbor highlands area. Target has had a lot of Car break ins and homeless sleeping in the parking lot and been non responsive to neighborhood.

Discuss Safety issues of Peck Park and Harbor Highlands Park:

Peck Park has had complaints of vagrants in the canyon and lots of trash. Request was made for us to do a clean up in the canyon as well as possibly have someone look at the grading due to overgrown roots that people can trip over.

Harbor Highlands has had calm down activity as far as large parties but they still are going on far too late and music playing and concern with campfires and barbeque pits at night over there. Its not enforced or policed when permits are issued and that's a concern.

Communication Event With LAPD:

We have scheduled the event tentatively for Oct 23, 2017 from 7-8 pm. This will be a communications forum partnered with LAPD to discuss communication and how to call in calls, when is it 911 or 1800asklapd, identify suspects and stranger danger for kids. Motion was made to approve Budget by Cynthia Gonyea and Seconded By Pete Bermiester. The vote was Unanimous for approval of \$150.00 for Budget for this Event.

CPR AND C.E.R.T

Planning to have these two trainings scheduled for the community.

Emergency Preparedness Fair

Due to budgetary constraints we have decided to start planning this for next fiscal year and seek out sponsorship also for the event.
