San Pedro, CA 90731

Dear Ray Regalado and Northwest San Pedro Neighborhood Council Members,

Thank you for submitting your recent request for HCBF to commission a study assessing the potential risks associated with Port-related rail tank hazards in San Pedro and Wilmington. This is a substantial issue in our communities and of great concern to HCBF as a community organization. The HCBF Board of Directors will have continued discussions regarding this issue; however, given the financial status of HCBF, we are currently unable to conduct a comprehensive study of this nature. HCBF is in the process of reframing its grant programs and developing next steps for the organization to ensure that HCBF has the ability to benefit the community for years to come.

A representative from your organization is welcome to attend our monthly board meetings and make a public comment or request a presentation to the board for further consideration.

Thank you.

Best,

Meghan Reese
