Re: Comment on Grand Jury Report

The Northwest San Pedro Neighborhood Council has long been concerned about improving the quality of our air. We commend the Port for the improvements made to date and recognize that there is still room for improvement. We urge the Board of Harbor Commissioners to adopt the recommendations of the Grand Jury with regard to changes in reporting particulate pollutants.

In addition, we request that the Port begin to use a Health Impact Assessment (HIA) that looks at all types of health impacts, such as asthma, COPD, and heart impacts, from projects rather than only cancer risks as is presently done.

Thank you for your consideration of this important matter.
