Dear Representatives:

## **Motion from Community Vision/Issues Committee April 22, 2015**

Whereas, the State of California is facing a drought crisis, and  
Whereas, water districts and municipalities have had serious water supply restrictions imposed, and  
Whereas, the response to the drought needs to be understood and borne by all citizens and their governments, and  
Whereas, a large water user such as the City of Los Angeles needs to be constantly on alert to its own waste of water resources, now  
Therefore, the Northwest San Pedro Neighborhood Council urges the City to prioritize, address, and complete repair of water leaks, poorly scheduled watering timers, and non-essential use of potable water resources on its own properties on an ongoing basis, before it begins to impose mandatory water restrictions on residences and businesses, and further,  
That the City provide a specific online and/or telephone mechanism for reporting of water leaks and waste on City property, and further,  
That the City provide updated information to residents, to be disseminated through each council office, as repairs are made.

Motion passed unanimously.

Amended motion as shown above passed with 11 yes (Burmeister, Cuevas, Dixon, Goldfarb, Gonyea, Jacobs, Nave, Regalado, Schach, Williams, and Zavalney), 0 no, 0 abstention(s), 1 recused (Bryant).
