### Agenda Item – Promoting Neighborhood watch programs/ update

I will work with Officer Bravo to connect with the last names on the block captain list.

### Agenda Item – Emergency preparedness meetings

- a. Officer Bravo will check with LAFD in January for February dates.
- b. The person at LAUSD to whom we reached out for help with organizing the preparedness event for the school administrators and other school officials is no longer with LAUSD. Our request is now being restarted and we will follow up with the new person.
- c. Chief Kerbrat of LAFD will be happy to hold a meeting with a few members of our committee and discuss and develop a presentation that he could give our Council on the topic of emergency plans for San Pedro. We will schedule meeting.

### Agenda Item – Discussion of LA City Council File 14-1553, proposed new ordinance for locking firearms and storing in locked containers

The committee discussed the City's Motion that instructs the City Attorney to prepare an ordinance that all firearms must be kept in locked containers or stored with trigger locks on. The committee voted unanimously to forward a Resolution to the Board opposing the Motion on the grounds that it was put through so quickly that it was not able to be discussed by Neighborhood Councils, that it duplicates existing state laws, and it is vague.

### Agenda Item – Community Meetings re: Rancho Holdings

Ray Regalado said that he is continuing to talk with the other SP NC Presidents to move this along, and it is imperative that the Federal agencies be there as well as City, County, and State agencies who oversee the Rancho site. Ray will continue to pursue inviting the agencies after the beginning of the new year.

### Agenda Item – Public Comment

Pete Burmeister expressed concern that the current truck access into/out of Rancho Holdings property is unsafe as trucks exiting Rancho have to make a left turn across northbound traffic on Gaffey. It was decided to leave this issue with the Issues committee, and if they don't carry it forward, the Safety committee can take it up.

Adjourned.

**Next meeting date January 7, 2015.**
