Committee Members in attendance: John DiMeglio, Matthew DiMeglio, Dan Dixon, Chuck Hart, Sheila Raymond, David Rivera

Non-Committee Members in attendance: Victor Christensen, John Barbera

1. Possible Revision of Letter Supporting State Assembly Bill 1321. Changes to wording only, no change in position
   - The committee agrees to support State Assembly 1321, and will try to get ahold of Gary Herrera Vice President of the ILWU to attempt to get up to date with the State Assembly Bill 1321 revisions.

2. Some additional information on use of train horns affecting Northwest San Pedro.
   - Study is being done for sound resulting from the port, the committee is currently waiting for the study to be complete to know the impact it has on San Pedro.

3. Possible motion regarding safety of alley between Miraflores St. and Channel St. Request for safety mirrors or change of direction to one-way eastbound.
   - The committee talked about the alley. The committee was asked to drive and experience the alley to see what needs to be done even if something should be done.

4. Possible motion regarding curfew rules at Los Angeles City beaches.
   - After detailed conversation the committee revised the motion introduced opposing Cabrillo Beach being open for 24 - hours.

Motion: Sheila Raymond Second: David Rivera

Yes: John DiMeglio, Matthew DiMeglio, Dan Dixon, Chuck Hart, Sheila Raymond, David Rivera (UNANIMOUS)

5. Status of requests for service or projects to City Departments, e.g. Dash bus line, parking restriction on Westmont Dr., additional work at Harbor Highlands Park.
   - Committee chair needs to look further into the topic to see if any responses from the departments have been made or pending.

6. Public comment on non-agenda items.
   - Victor Christensen restated the presentation that was given by LAUSD at the Neighborhood Councils last board meeting. He also talked about his discussions with Romero in the past few weeks.
   - Vic will be speaking at the 6 PM September 6 Committee of the Whole meeting about the Christensen Science Center.
   - The Chamber of Commerce ideas for Port Improvements
   - Chuck Hart stop sign at Basin and Meyler is behind a tree and not visible. New active earthquake fault has also been discovered in a study done by Souther California Earthquake Center. Can be found [https://www.scec.org/publication/8213](https://www.scec.org/publication/8213)

7. Next Meeting: September 25, 2019
