RE: DFSP San Pedro

Our Council has received questions about the soil remediation project being conducted by the Navy on the property behind the 900 block of Sandwood Place as well as questions regarding the overall future of this property. I would like to invite you or a representative to provide an update to our Neighborhood Council at its upcoming meeting, Monday February 10, 2020 at Peck Park. In particular we are looking for answers to the following questions:

- When is the soil remediation work scheduled to end?  
- At project conclusion, will all of the equipment be removed?  
- What are the operational days and hours of this project?  
- What is the status of the environmental assessment of the DFSP property? If it is not complete, when do you anticipate that it will be completed?  
- What is the status of the proposed lease of the DFSP property on Gaffey?  
- Does the Navy have any plans to sell or change title on this property?  
- Does the Navy have any plans to transfer any portion of their land to the city of L.A.?  

Please let me know whether or not you will be able to attend.

Very Truly Yours,

Ray Regalado, President  
Northwest San Pedro Neighborhood Council
